

Flying AZAL to New York

Recently, I flew from Baku to New York directly with Azerbaijan Airlines, something I wanted to do ever since AZAL's inaugural flight to JFK. In addition to the convenience of a direct intercontinental connection, Azerbaijan Airlines maintains a high standard of in-flight comfort and customer service. Moreover, departing from the newly completed international terminal at Baku's Heydar Aliyev Airport represents another major improvement of travel experience for passengers.

Congratulations to Azerbaijan Airlines on another successful milestone and thank you to the flight crew for their high professionalism and their welcoming hospitality onboard!
