

Reaching high

Watching the launch of Azerbaijan's first ever satellite live, all of us at the Embassy felt proud for our country and our people. A major milestone like this is a good moment to reflect on the progress made over the last two decades as well as to consider independent Azerbaijan's achievements and vision for the future. As we do that, we are especially happy for our friends at Azercosmos and grateful to the Orbital Sciences, a U.S. company, which has become a key partner in one of Azerbaijan's most ambitious and significant projects. Congratulations!

E.S.
